

REMARKS

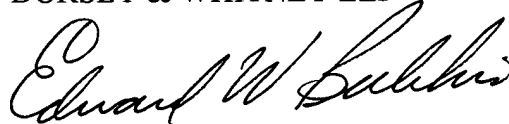

Claims 32-83 are being added for examination in this application. All of these claims are considered to be patentable based, inter alia, on the statement of the PTO Board of Appeals in decision in the parent application that:

comparing the types of current processors with a compatibility table and determining the types of the processors that are compatible with all current processors...cannot be derived from the combination of the references. [Decision at 8-9].

Applicants therefore respectfully request favorable consideration and a prompt notice of allowance.

Respectfully submitted,

DORSEY & WHITNEY LLP

Edward W. Bulchis
